1. GENERAL

1.1. Governance

1.1.1. General

1.1.1.1. The Rules govern the IndyCar Series and supersede all previous Rules, bulletins and supplementary Rules and regulations, unless otherwise indicated. Capitalized terms used in the Rules have the meanings set forth in Rule 18, Glossary.

1.1.1.2. Each Member is personally responsible for the Member's awareness, understanding, and compliance with the Rules.

1.1.1.3. INDYCAR may penalize any Member and/or exclude any Member or equipment from any Event if INDYCAR deems any act, any omission, any condition to be hazardous and/or not meeting the specifications, requirements, spirit, illustrations, and/or intent of, the Rules. Acts, omissions or conditions that may warrant penalty and/or exclusion include without limitation any action which INDYCAR deems to be a threat to or a violation of the integrity or safety of INDYCAR, the IndyCar Series and/or orderly conduct of the Event, and/or which relates to the design or construction of a Car or repairs to a damaged Car.

1.1.1.4. If the Rules do not expressly permit a variation, then the Member shall presume that such variation is not permitted. If a Member is uncertain if an act and/or part violates a Rule, the burden is on the Member to receive pre-approval in writing from INDYCAR. For this purpose, e-mails are not written approval unless otherwise expressly permitted and specified by INDYCAR by bulletin. The Member assumes the

Notices, bulletins, supplementary Rules, regulations, and penalties are effective on the date and time issued, regardless of the date and time when a Member receives actual notice.

INDYCAR shall have the following rights: (i) to authorize and supervise Events of any kind; (ii) to create, interpret, revise and enforce Rules at any time; (iii) to render decisions concerning the Rules and Events; (iv) to grant, approve, refuse, enforce or withdraw Licenses, memberships, and sanctions; (v) to assign and cancel dates for Events; (vi) to appoint and rescind the appointment of Officials; (vii) to impose, enforce and/or remove penalties for any violation of the Rules; (ix) to establish, interpret and enforce standards of eligibility for participation in Events; (x) to establish Rules for its own procedure; and (xi) to do any and all things which, in its judgment, are consistent with the enhancement, safety and/or integrity of the Events. INDYCAR also reserves the right to take whatever action and/or impose whatever penalty it deems necessary to maintain the integrity and safety of INDYCAR, the IndyCar Series, and/or its Events.

INDYCAR shall have the right to determine whether or not to publicly publish or cause to be publicly published a notice stating that INDYCAR has penalized any Member and/or rendered a judgment on a review and/or appeal. If published, the notice may include without limitation a description of the penalty or judgment and names of the affected Member(s). Having accepted the privileges and obligations of membership, the Members referenced in any such notice waive any and all rights of action against INDYCAR and/or against any individual or entity publishing such notice. 8.3.10.4.3. The remaining Cars in the Pole Position Car's group will be ranked by best lap time in each session in the odd numbered positions, starting with position three (3). The remaining Cars in the other group will be ranked by best lap time in each session in the even numbered positions, starting with position two (2).

8.4. Indianapolis 500® Mile Race

8.4.1. Rule 8.4 contains Qualifications Rules for the Indianapolis 500® Mile Race, which are in addition to the Rules for all Race Locations and Oval Events contained in Rules 8.1 and 8.2 respectively to the extent not inconsistent with them. In the event of any inconsistency, Rule 8.4 shall govern the Indianapolis 500® Mile Race.

8.4.2. INDYCAR shall not offer any Provisional Starting Cars at the Indianapolis 500® Mile Race.

8.4.3. Qualifications Attempt Procedure

8.4.3.1. A Car must be presented in Pit Lane at the designated area. When instructed, the Car will move directly south into the staging area. When signaled by INDYCAR, the Car will move to the head of the Qualifying line and wait until signaled to leave Pit Lane to begin a Qualifying attempt. Notwithstanding the end of the

Qualifications session, a Car may begin its Qualifications attempt, provided it has received the signal and is moving with its Engine running. The Car is not required to have completed its Qualifications attempt prior the end of the Qualifications session.

8.4.3.2. An Entrant will be given both green and yellow flags to use at the start/finish line to signal the Entrant's Car. The Entrant must display the green flag to start a Qualifications attempt prior to the Car completing its last warm-up lap. Display of no flag or a yellow flag does not begin a Qualifications attempt.

8.4.3.3. A completed Qualifications attempt shall consist of four (4) consecutively timed laps.

8.4.3.4. If a Car is unable to complete its Guaranteed Attempt because of a mechanical condition or on Track incident and is prevented from making a second attempt during Saturday Qualifying as determined by INDYCAR, then INDYCAR shall provide that Car an opportunity to complete its second attempt on Sunday at a time determined by INDYCAR ("Last Chance Qualifying").

8.4.3.4.1. The fastest thirty-three (33) Cars completing Qualifying attempts on Saturday shall start the Race. However, for every Car unable to complete their Guaranteed Attempt, as described in Rule 8.4.3.4, there will be an equal number of temporary positions available at the rear of the starting field.

8.4.3.4.2. INDYCAR shall provide each Car from Rule 8.4.3.4 one Qualifications attempt during Last Chance Qualifying, with the order being determined by a random draw. If a Car from Rule 8.4.3.4 can post a time

faster than any Car occupying one of the temporary positions, that Car will earn a position in the Race, subject to the bumped Car having one last opportunity to requalify and reclaim a position.

8.4.3.4.3. All Cars earning positions in the Race during Last Chance Qualifying shall be listed in order of speed rank behind Cars that qualified on Saturday.

8.4.3.4.4. If there are open positions remaining at the conclusion of Last Chance Qualifying, these remaining positions will be filled according to Rule 8.4.8.

8.4.3.5. INDYCAR or an Entrant may terminate a Qualifications attempt before completion upon display of a yellow flag at any time prior to the point where the Car crosses the start/finish line at the conclusion of the fourth (4th) consecutively timed lap. The Car will be charged with an attempt and must return immediately to the Pit Lane.

8.4.3.6. Once each Car has received its one Guaranteed Attempt, a break in the line occurs. If the break in the line occurs before the time allotted for Saturday Qualifying has expired, Cars may continue to make Qualifications attempts subject to these Rules until the time allotted for Saturday Qualifying has expired.

8.4.3.7. The Race shall be comprised of thirty-three (33) Cars (or such other number, as INDYCAR shall determine).

8.4.3.8. Except as otherwise provided, the same Car and Driver must be used in both Saturday and Sunday Qualifying.

8.4.4. There are two scheduled days of Qualifying: Saturday, May 20th and Sunday, May 21st.

8.4.4.1. Saturday, May 20th Qualifying Rules are as follows:

8.4.4.1.1. INDYCAR shall conduct a random draw of all entered Cars on the Pagoda Plaza Stage at 6:15 p.m. on Friday, May 19th, to determine the order in which the Cars shall make their initial Qualifying attempts for Saturday, May 20th.

8.4.4.1.2. All Cars listed on the initial Qualifying order are given one (1) Guaranteed Attempt to qualify provided the Car is properly and timely presented.

8.4.4.1.3. The fastest thirty-three (33) Qualifications from Saturday Qualifying, subject to the results of Last Chance Qualifying, shall determine the groups for Sunday Qualifying.

8.4.4.1.3.1. Positions 1-9 have secured a starting position and will participate in the "Fast 9" group on Sunday, May 21st.

8.4.4.1.3.2. Positions ten (10) through thirty-three (33) will participate in "Group One (1)" on Sunday, May 21st.

8.4.4.1.4. After the break in the Qualifying line, two Qualifying lines will be formed. Multiple attempts are permitted with or without withdrawing a previous time.

8.4.4.1.5. Qualifying lines are as follows:

a) Line 1 – Is for Cars that have not Qualified or have withdrawn their previous Qualifying times. Priority will be

given to this lane. The withdrawal of previous Qualifying times must be done upon entry to Line 1. Should circumstances, as determined by INDYCAR, prevent an attempt, the withdrawn time will be reinstated.

b) Line 2 – Is for those Cars that have already Qualified but want another attempt and have not withdrawn their previous Qualifying times.

8.4.4.1.6. If a Car has had its Qualifications time voided or has been bumped from the Race, an Entrant may make a subsequent Qualifications attempt with the Car, provided the Entrant's representatives present the Car at the designated area in Pit Lane prior to making a Qualifications attempt.

8.4.4.2. Sunday, May 21st Qualifying Rules are as follows:

8.4.4.2.1. The pre-Qualifications practice sessions on Sunday shall be open to all Qualified Cars and any Cars participating in Last Chance Qualifying.

8.4.4.2.2. All Cars advancing to Sunday Qualifying are required to make one (1) Qualifications attempt.

8.4.4.2.3. Sunday Qualifying shall consist of two (2) Groups: "Group One (1)" and the "Fast 9".

8.4.4.2.4. Each Car is provided one Guaranteed Attempt. If each Car within its respective Group does not receive its Guaranteed Attempt, the times from Saturday will act as the official Qualifying time for that respective Group.

8.4.4.3. Sunday, May 21st, “Group One (1)”

8.4.4.3.1. “Group One (1)” Qualifying shall consist of positions ten (10) to thirty-three (33) from Saturday Qualifying subject to the results of Last Chance Qualifying.

8.4.4.3.2. “Group One (1)” Qualifying order will be based on Saturday’s Qualifying positions subject to the results of Last Chance Qualifying. The “Group One (1)” order will begin with position 33 to position 10.

8.4.4.3.3. Previous Qualifying times are voided, and all Cars must requalify.

8.4.4.3.4. One Qualifying attempt for each of the “Group One (1)” Cars sets positions ten (10) through thirty-three (33).

8.4.4.4. Sunday, May 21st– “Fast 9”

8.4.4.4.1. The Qualifying order for the “Fast 9” will be set from slowest to fastest, based upon the official Qualifying time of each Car. The “Fast 9” order will begin with position nine (9) to one (1).

8.4.4.4.2. All previous Qualifying times are voided.

8.4.4.4.3. One Guaranteed Attempt for each of the “Fast 9” Cars set the Starting Lineup for positions 1-9.

8.4.4.4.4. All Cars advancing to the “Fast 9” are required to make one (1) Qualifications attempt in the “Fast 9”.

8.4.4.4.5. Each of the nine (9) Cars advancing is provided one (1) Guaranteed Attempt, provided the Car is properly and timely

presented. If each Car does not receive its Guaranteed Attempt, the times from Saturday will act as the official Qualifying time.

8.4.4.5. Any Cars not able to begin or complete a required Qualifications attempt shall be ranked at the rear of their respective Qualifications group in order of Saturday Qualifying times.

8.4.5. Technical Inspection

8.4.5.1. To be properly presented at the start of either Qualifications day, the Cars in the Qualifications order must be fueled and in line at the technical inspection area as follows:

Saturday

Cars must be in line thirty (30) minutes before Qualifications begins.

Sunday

Cars in Group One (1) must be in line thirty (30) minutes before Group One (1) Qualifications begins.

Cars in the Fast 9 must be in line forty-five (45) minutes before Fast Nine Qualifications begins.

8.4.5.1.1. Cars are required to add a minimum of three (3) gallons of fuel from the fuel depot in the garage area prior to the first time through pre-Qualifications technical inspection. For all other Qualifications attempts, Cars must add a minimum of three (3) gallons of fuel from the Qualifying fuel tank located in the Pit Lane.

8.4.5.2. While the Car is in the Qualifications line, an Entrant's representatives may make front/rear wing angle and Tire pressure adjustments

only. The Car must be moved as the Qualifications line progresses. A Car must not leave the Qualifications line without the approval of INDYCAR.

8.4.5.3. Once the Car successfully completes the technical inspection process, INDYCAR shall issue the Car an inspection sticker indicating the Car is eligible to make a Qualifications attempt on that specific Qualifications day. The Car may make a Qualifications attempt during the specific Qualifications day without having to return to the technical inspection area, if the Car displays the sticker.

8.4.5.4. Only Cars participating in a Qualifications attempt may obtain fuel from the Qualifying fuel tanks located in Pit Lane.

8.4.5.5. The rear wing mainplane used during an Entrant's first completed Qualifications attempt that lists them in the Race must be the same mainplane that the Entrant uses for the remainder of the Event, including additional Qualifying attempts, unless the Entrants' Qualifying time is withdrawn.

8.4.6. Post-Qualifications Technical Inspection

8.4.6.1. During Saturday and Sunday Qualifying, INDYCAR shall institute a voluntary impound area in Pit Lane. A Car may only proceed to the voluntary impound area upon receiving approval from INDYCAR. In lieu of permitting a Car to proceed to the voluntary impound area, INDYCAR may assign an Official to remain with the Car.

8.4.6.2. After each Car has completed its required attempt, each Car must return to the designated impound area. Each of the Cars will be assigned a technical Official.

8.4.7. Alternate Procedures

8.4.7.1. If the time allotted for Qualifications has expired on Saturday without every Car having been given its Guaranteed Attempt, INDYCAR shall determine the revised Qualifications procedure. This may include without limitation all Cars qualifying on the next available day.

8.4.8. Special Session - In the event the Qualifications period ends on Saturday, May 20th with fewer than thirty-three (33) Cars qualified for the Race after the break in the line and there are no Cars eligible for Last Chance Qualifying, all Cars having met the Qualifications requirements shall be locked in and cannot be bumped. INDYCAR shall fill the balance of the Starting Lineup by the fastest Qualified Cars of a special session, with the only bumping taking place amongst the Cars participating in the special session. The following procedure shall apply to the special session:

- a) An Entrant who wishes to secure a spot in the Qualifications order for the special session must have a representative present at 6:15PM on Saturday May 20th at N1 to draw for a Qualifications position.
- b) The special session shall take place on the next available day, weather permitting, prior to Group One (1) and "Fast 9" Qualifying and will consist of one (1) Guaranteed Attempt for each Car. Any Car not presented and starting its Guaranteed Attempt when directed to do so by INDYCAR or not taking the green flag will forfeit its Guaranteed Attempt. The remainder of the Starting Lineup will be filled based on Qualifications time during the special session. If the special session does not fill the Starting Lineup, INDYCAR will fill the Starting Lineup.

- c) Cars that have qualified in the special session will participate in Group One (1).
- d) In the event INDYCAR determines that this procedure will interfere with the preparations for the Race, either due to weather or otherwise, INDYCAR may forego the special session and fill the Starting Lineup in accordance with Rule 8.1.10.2.

8.4.9. If in the case of thirty-three (33) or fewer Entries, then Rules 8.4.3.4 and 8.4.8 shall not apply. If the Starting Lineup is not full when the Qualifications period has ended on Saturday May 20th and any Car(s) have failed to complete their Guaranteed Attempt as determined by INDYCAR, then all Cars successfully completing Qualifications attempts shall be “locked in”. The remaining available positions for Sunday Qualifying shall be determined as follows:

Entrant point standing entering the Race,

For any Cars without Entrant points, Qualifying order.

8.4.10. Post-Qualifications Photographs

8.4.10.1. After a Car has completed its initial Qualifications attempt, the Driver and Car must proceed to the designated photograph area to take the Qualifications photograph, unless INDYCAR approves a delay in the timing of the photograph.

8.4.10.2. Each Driver/Car Qualifications photograph is permitted a maximum of ten (10) minutes.

8.4.10.3. During the ten (10) minute photograph time, a Driver and crew must wear the designated hats in the assigned order (two (2) Entrant hats, one (1) Firestone hat, and two (2) Event hats). If there is time permitting, other hats may be worn. If there is not time permitting, then the Entrant must make arrangements to schedule an alternate time to take additional photographs.

8.4.10.4. For each subsequent Qualifications attempt, a Driver and Car are not required to proceed to the photograph area for a duplicate set of photographs.

8.4.10.5. After the photographs are completed, the Car will return to the technical inspection area for post-Qualifications technical inspection.

9. PENALTIES

9.1. General

9.1.1. INDYCAR may penalize any Member for any violation of the Rules. If an Official observes or is made aware of an act or omission by a Member that constitutes a violation of the Rules, the Official shall promptly report the violation to INDYCAR. INDYCAR shall consider the report and shall conduct whatever additional inquiry it deems appropriate under the circumstances. After concluding the inquiry, INDYCAR shall determine whether disciplinary action is appropriate and if so, what disciplinary action should be taken. The Member shall be informed of the determination and if disciplinary action is imposed, INDYCAR shall issue a penalty notice to the Member specifying the violation, a brief statement of the circumstances of the violation and the penalty imposed. If the act or omission of a Member is determined by INDYCAR to constitute a threat to the integrity or safety of INDYCAR, the IndyCar Series or to the orderly conduct of an Event or to constitute a violation during an Event, INDYCAR may take immediate action against the Member.

9.1.2. The Race Stewards shall monitor violations of the Sporting Regulations of the Rules during Qualifications and/or Races. The Race Stewards and/or the Race Director may request a Steward's Review at any time. Upon request for a Steward's Review, the Race Stewards shall deliberate on the violation to promptly determine if a penalty will be issued. The Competitors and broadcast/media are informed but the Race will not stop, unless directed by the Race Director. During the Steward's Review, all available radio communications, camera views, the time line data and the Rules references will be made available to the Race Stewards. Each Race Steward votes for or against the issuance of a penalty, a majority vote determines if a penalty is

issued, and the individual votes are not released or made public. Once this determination is made, the Race Stewards shall determine the severity of the penalty from the Penalty Guidelines developed by INDYCAR based on majority vote. The Chief Steward will notify the Race Director who shall advise the Competitors and broadcast/media of the determination and/or penalty either: (i) "Car # ___ was under Steward's Review and no further action is required" or (ii) "Quoting Rule # ___ and Car # ___, the penalty is issued."

9.2. Scope of Penalties

9.2.1. Penalties for violations of the Rules are divided into two categories: Race Procedure penalties and non-Race Procedure penalties. Regardless of the category, penalties are determined by the gravity of the violation and its effects on fairness of competition, the orderly conduct of the Event and the interests and integrity of automobile racing, INDYCAR and the IndyCar Series. INDYCAR shall have the authority to impose any or all or any combination of the following penalties against any Member for any violations of the Rules at any time.

9.2.2. Race Procedure Penalties – Violations of Race Procedures generally result in penalties imposed during on-Track activity. If circumstances do not permit a penalty to be served during on Track activity, INDYCAR shall declare the results provisional and subject to examination which shall take no longer than one (1) hour after the displaying of the checkered flag. This examination is independent of the Competitor's requirement to pass post-Race technical inspection. If the imposition of a penalty is near or at the end of the on Track activity and the Driver/Car does not fulfill it, INDYCAR may reposition the Driver/Car in the posting of results. Additional penalties may be applied to subsequent on-Track activities to reflect the fulfillment of the penalty. Except as provided in Rule 12.2.1, the

penalty, including without limitation any repositioning in a posting, is non-reviewable and/or appealable.

9.2.2.1. Black Flag – INDYCAR may impose black flag penalties.

9.2.2.2. Laps - INDYCAR may impose lap penalties. Lap penalties shall be imposed in complete laps only. The imposition of a lap penalty shall result in the removal of official credit for the specified number of penalty laps from the total laps credited to the Competitor and the scoring records and all points and awards shall reflect the removal of penalty laps.

9.2.2.2.1. If the lap penalty is imposed during the on Track activity, the removal of official credit shall begin with the Competitor's lap in which the violation occurred and shall include subsequent consecutive laps, as determined by INDYCAR.

9.2.2.2.2. If the lap penalty is imposed after the on Track activity is completed, INDYCAR shall determine, based on the severity of the violation, whether the removal of official credit shall begin with the Competitor's last lap and include previous consecutive laps as required, or begin with the Competitor's lap in which the violation occurred.

9.2.2.2.3. INDYCAR shall make a reasonable effort to notify the penalized Competitor of a lap penalty at the time it is determined. However, failure to notify the Competitor during the on Track activity will in no way mitigate or change the penalty.

9.2.2.3. Time – INDYCAR may impose time penalties as described below. The imposition of a time penalty may result in the removal or

addition of the specified amount of time to the Competitor and the timing and scoring records and awards shall reflect the removal or addition of time.

9.2.2.3.1. If the time penalty is imposed during a subsequent on-Track activity, the time shall be removed from the Entrant's Open Test or Team Test, practice session and/or Qualifications period. The time penalty must be fulfilled when directed by INDYCAR. The time penalty begins when the Member, the Member's Car and Entrant personnel are in Pit Lane.

9.2.2.3.2. If the time penalty is imposed during the current on-Track activity, time shall be removed or added to the Entrant's overall time on the official posting.

9.2.2.4. On-Track Repositioning – INDYCAR may impose a repositioning penalty during on-Track activities. The repositioning penalty will result in an order change of the Car's on-Track position.

9.2.2.5. Starting Lineup Repositioning – INDYCAR may impose a Starting Lineup penalty. A Starting Lineup penalty is repositioning of an Entrant in the Starting Lineup. If a Starting Lineup repositioning penalty is announced, the recipient of the repositioning penalty may not pit until a Green Condition occurs, unless approved by INDYCAR.

9.2.2.6. Disqualification - INDYCAR may disqualify the Member. Disqualification shall entail the loss of any right to compete in the remainder of the current Event from the time at which the disqualifying condition first occurred. It may entail the forfeiture of Entry fees paid or payable and INDYCAR shall determine, based on the severity of the violation, whether or not the

disqualification includes the forfeiture of points and awards earned up to the moment at which time the infraction for the disqualification first occurs.

9.2.3. Non-Race Procedure Penalties – Violations of non-Race Procedures generally result in penalties imposed during off-Track activity. Penalties are reviewable and/or appealable except as provided in Rule 12.2.1.

9.2.3.1. Additional Appearances and/or Meetings – INDYCAR may require a Member to attend and actively participate in appearances and/or meetings in addition to those required of the Member, other Members, pursuant to the Rules and any other agreements. INDYCAR may specify the due date for completion. Failure to attend and/or participate by the due date may result in reinstatement of the monetary fine if a monetary fine was imposed, or additional penalties as determined by INDYCAR.

9.2.3.2. Monetary Fines – INDYCAR may issue monetary fines and specify the due date for payment. Unpaid fines may be deducted from any awards payable by INDYCAR to the Entrant or Manufacturer associated with such Member. INDYCAR may suspend or refuse to approve the renewal of the License and/or membership of any Member failing to timely pay any fine during the period the fine remains unpaid.

9.2.3.3. Probation – INDYCAR may place a Member on probation. Probation is a state of limitation upon a Member's privileges usually following an act or omission occurring before or during membership which calls into question the Member's willingness or ability to abide by standards required for membership. The purpose of probation is to establish a process to allow a Member to prove, by the Member's

conduct, that the standards of membership are understood and will be honored at all times. During probation, a Member is under heightened scrutiny and the Member can be required to abide by specified standards of conduct that are more stringent than those which are otherwise applicable to Members under the Rules. If a Member violates probation, the Member is subject to a more severe penalty as determined by INDYCAR. INDYCAR shall determine the duration and conditions of probation.

9.2.3.4. Suspension – INDYCAR may suspend a Member. A suspension may be total suspension from INDYCAR or it may be limited to a suspension of membership or License privileges at a Race Location facility or facilities, or for a particular Event or Events, or for a specified or indefinite period of time. Unless expressly limited, a suspension shall entail the loss of any right to take part in any capacity whatsoever in any Event or Events included in the suspension. Unless otherwise stated, individuals under suspension will not be issued credentials of any kind for an Event and the privileges and uses of the Track, pit area, garage area and other restricted areas will be denied. Every suspended individual shall return all credentials and/or Licenses to INDYCAR who will not return them until the term of the suspension has expired. Any delay in surrendering the credentials and/or Licenses shall be added to the term of the suspension. If the suspended individual does not return the credentials and/or Licenses, the credentials and/or Licenses shall be inoperative and invalid until the lifting of the suspension. Suspension may also render void any previous Entry made for any Event occurring during the term of such suspension and may entail the forfeiture of any applicable Entry fees paid or payable for any such Entries. INDYCAR shall have the right to reduce, increase, or otherwise

modify the unexpired term of a suspension issued under the Rules.

9.2.3.5. Loss of Points and/or Awards – INDYCAR may rule that a Member who violates the Rules will forfeit all or a portion of the points and/or awards earned in that year, including points and awards earned in the Event in which the violation occurred.

9.3. Additional Provisions and Guidelines

9.3.1. Improper Conduct - Any Member attempting to or engaging in unsportsmanlike conduct, unsafe conduct, or conduct detrimental to racing; INDYCAR; and/or to the IndyCar Series, whether during an Event or on/off the Track, may be subject to any or all penalties. 9.3.2. Blocking - A Driver must not alter his/her racing line to pursuing Drivers.

9.3.3. Avoidable Contact – The primary responsibility for avoiding contact with a Competitor resides with the overtaking Competitor and the secondary responsibility resides with the Competitor(s) being overtaken. A Competitor who fails to demonstrate their responsibility and initiates a maneuver that results in contact with another Competitor may be penalized.

9.3.3.1. Driver Involved in Multiple Contact – Any Driver determined to be in violation of Rule 9.3.3. (avoidable contact) two (2) times during any three (3) consecutive Race Events shall be placed on probation for a period of the Drivers next five (5) Race Events.

This Rule applies to all gambling activities including, without limitation, those available in any gaming facility, casino, lottery gaming facility, racetrack gaming facility, or on the internet or electronically, or in all other establishments and locations. Gambling activity, for purposes of the above, is defined as placing anything of value at risk, whether monetary or otherwise, in connection with a bet, wager, or game of chance. If an applicant or Member wishes to participate in any gambling activity associated with or related to INDYCAR or its affiliates (for example, a celebrity blackjack tournament), he/she may do so only if he/she has received the prior written authorization of INDYCAR. Such authorization, if granted, will be limited to the extent authorized by INDYCAR.

9.3.7. Social Media – Competitors and Officials must comply with provisions of the INDYCAR Social Media Policy at all times.

9.3.8. Detrimental Member Conduct – The favorable reputation of INDYCAR, and its Members, is a valuable asset and creates tangible benefits to all involved. comments to the news media that unreasonably attack or disparage Members or INDYCAR. Responsible expressions of legitimate disagreement with INDYCAR are not prohibited. Amendments not included

10. CHAMPIONSHIP AND POINTS

10.1. Championships and Point Standings

10.1.1. INDYCAR recognizes several different types of championships, including, without limitation, Engine Manufacturer, Entrant and Driver. To facilitate competition for these championships, INDYCAR calculates and publicizes complete rankings of all participating Engine Manufacturers, Entrants and Drivers following the completion of each Race and Indianapolis 500® Mile Race Qualifications. Unless otherwise announced by INDYCAR, all scheduled Qualifications and Races shall offer championship points.

10.2. Significance of the Car Number

10.2.1. Points and awards are credited only to the Engine Manufacturer supplying the Engine, Entrant entered in the Event and to the Driver participating in that Car except as otherwise permitted by INDYCAR. The Car number is listed on the Entry and signifies the Car to be credited. The points and awards accumulate on behalf of the entered Car number, separately from any other Entrant's License that Team may hold.

10.3. Crediting of Points

10.3.1. INDYCAR has established the following system under which eligible Engine Manufacturers, Entrants and Drivers may accumulate points.

10.3.2. Entrant points will be credited only to an Entrant holding a valid Entrant's License at the time of the Event, competing with a properly entered Car and displaying the assigned Car number throughout any Event.

10.3.3. Driver points will be credited only to Drivers holding a valid Driver License at the time of the Event.

10.3.4. INDYCAR will not credit the point(s) usually earned by the Entrant and Driver starting a Race in the Pole Position if the Starting Lineup is determined in accordance with Rule 8.1.10.2.

10.3.5. If a Car participates in practice and/or Qualifications but is unable to start a Race, the Driver and/or the Entrant shall receive half of the points the Car would have received for the Race had the Car started the Race (“non-starting Cars”). INDYCAR shall determine whether a Car is deemed to have participated for purposes of this Rule 10.3.5.

10.3.6. Unless otherwise provided by INDYCAR, all Entries shall be eligible for Entrant and Driver points associated with participation in an Event.

10.4. Ties

10.4.1. At the end of the Racing Season, the Engine Manufacturer, Entrant and Driver with the highest number of ranking points respectively shall be declared the Champion. In the case of a tie in the championship, INDYCAR will determine the champion based on the most first place finishes. 12. REVIEW

12.1. Introduction

12.1.1. Members recognize the need for Officials to make decisions that require judgment and the exercise of discretion, often instantaneously with Events as they are occurring. They further recognize that there is a limited system of instant replay during or after an Event. Except as expressly provided in these Rules, the exercise of judgment by Officials during an Event issuing a penalty or otherwise shall not be reviewed and the decision of Officials is final and binding. By submitting a membership application and in consideration of receiving the numerous benefits available, each Member agrees that the final and binding decisions of Officials are non-litigable. No court action of any kind may be taken by any Member. Further, there is no right of review or appeal of any INDYCAR decision or penalty to FIA and/or ACCUS-FIA and/or any other third party including the FIA International Court of Appeals and ACCUS-FIA National Court of Appeals, even if an Event is listed by ACCUS-FIA and/or another ASN on the FIA international calendar. By reason of membership in INDYCAR and/or participation in an Event, any Member waives any rights such Member may otherwise have to be a party or to take any action in court seeking legal or equitable relief against any decision or action of any kind by INDYCAR, the Officials, anyone acting on behalf of INDYCAR, the review facilitator and/or the appeal panel. Each Member acknowledges that participation in an Event by other Members is in part in reliance on this waiver. 16.2.3. Full Season Engine Program – A Full Season Entrant is allowed four (4) fresh-built Engines from the Season Start of a given Racing Season until the Season Start of the following Racing Season. If circumstances require a fifth (5th) or more Engine is used, the following will apply:

16.2.3.1. A fifth (5th) or more Engine may be fresh or partially-used.

16.2.3.2. A fifth (5th) or more Engine does not earn Engine Manufacturer points; however, it may still lose points for not completing its planned Engine life cycle and/or having a Non-Minor Repair requiring a part change.

16.2.3.3. Cars using a fifth (5th) or more Engine are removed from the finishing order used for Race finish points in the Engine Manufacturer championship.

16.2.4. Short Indianapolis 500 Engine Program – Short Indianapolis 500 Engine Programs will only be allocated one (1) Engine for the duration of the Indianapolis 500 Race Event.

16.2.5. Full Indianapolis 500 Engine Program – A Full Indianapolis 500 Engine Program has two (2) Engines for the duration of the Indianapolis 500 Race Event.

16.2.6. An Entrant participating in a Short or Full Indianapolis 500 Engine Program may start the Event with an Engine that is sealed prior to the Event with previous Engine miles since the Season Start. If that Engine reaches its Change Out Mileage prior to the Race, it may be changed according to Rule 16.5.1. An Engine changed for this reason would not be considered an Entrant's Indianapolis 500 Race Engine unless specified as such by the Engine Manufacturer.

16.3. Engine Mileage

16.3.1. The minimum mileage threshold ("Change-Out Mileage") is 2500 miles.

16.3.2. The Full Season Entrant Engine Mileage is 10,000 total miles for use in all Team Tests, Open Tests, and Race Events from the Season Start of a given Racing Season until the Season start of the following Racing Season.

16.3.2.1. A substitute Driver is the same Driver for purposes of Engine miles.

16.3.3. All Engine mileage must be reported to INDYCAR and is subtracted from the 10,000-mile allotment, regardless of Use. Mileage is decided from the official lap count from each on Track Event multiplied by the official Track length. Race parade and pace laps, Oval Qualifications warm-up laps, and initial out lap from each practice and Qualifications session are included. The following will also apply:

16.3.3.1. For all tests where official timing and scoring is not available, the Engine Manufacturer must provide INDYCAR with Engine mileage within forty-eight (48) hours of the completion of a Test.

16.3.3.2. Some Events do not occur on Track including straight-line Tests. Because timing sheets are not available, mileage calculated by the ECU may be used instead.

16.3.3.3. The Engine Manufacturer must provide INDYCAR with ECU and boost sensor serial numbers within forty-eight (48) hours of the completion of the Event for the purpose of tracking mileage.

16.3.3.4. An Engine's current total mileage is rounded to the nearest mile.

16.4. Engine Change-Out

16.4.1. Between the last Race of the Racing Season and the Season Start of the following Racing Season, an Entrant may change-out Engines as it deems appropriate without penalty and without the prior approval of INDYCAR.

16.4.2. From the Season Start until the completion of the Racing Season, no Engine may be changed-out without the prior approval of INDYCAR and the Engine Manufacturer. Engine Change-Outs by an Entrant may be specified by INDYCAR as either:

- Approved Engine Change-Out, or
- Unapproved Engine Change-out.

Unless otherwise stated, any Engine that is installed shall count as one (1) of the fresh-built Engines allotted to an Entrant.

16.5. Approved Engine Change-Outs

16.5.1. Engine Life Complete – An Engine that has reached the following Engine mileage milestones may be changed without penalty:

16.5.1.1. The Engine has reached its Change-Out Mileage.

16.5.1.2. After the completion of Qualifications at an Event, any Engine that would exceed 2850 miles prior to the completion of the scheduled Race distance.

16.5.1.3. After Race One (1) of a Double-Header Race Location, any Engine that would exceed 2850 miles prior to the completion of the scheduled Race Two (2) distance.

16.5.2. Team Test Allowance – After the completion of a Race, an Entrant with an Engine installed that has reached 2400 miles may install a lower mileage Engine with INDYCAR approval for the purpose of participating in a Test scheduled between two (2) Races. In this case, the following will apply:

16.5.2.1. The higher mileage Engine must be installed to complete its planned life cycle prior to the start of the next Race Event.

16.5.2.2. An Entrant must first use Engines from its current allocation.

16.5.2.3. If an Entrant is currently allocated only one (1) Engine, a second, fresh Engine may be

allocated to the Entrant for the purpose of participating in the Test.

16.5.2.4. Any Engine installed for the purpose of completing Testing remains allocated to the Entrant and must be installed after the first, higher mileage Engine has completed its life.

16.5.3. Manufacturer Test Engine – An Entrant participating in an INDYCAR, Tire or Engine Manufacturer Test may fit a Manufacturer Engine for that Test without penalty. Such Engine Change-Outs must comply with the Rules. Engine miles used for such Tests do not count against the Full Season Entrant Engine Mileage limit.

16.5.4. Indianapolis 500 Race Engine – For Entrants with multi-Engine programs, a fresh Engine may be fitted before the Indianapolis 500 Race without penalty, subject to availability and the following conditions:

16.5.4.1. Both Engines remain allocated to the Entrant, and both Engines must reach their Change-Out mileage before any other Engines are allocated to the Entrant.

16.5.4.2. After the completion of the Indianapolis 500 Race Event, an Entrant may choose either of these allocated Engines to be installed; however, the installed Engine must remain in the Car until it reaches its Change-Out Mileage.

16.5.4.3. Once an Indianapolis 500 Engine is fitted to the Car, removal of the Engine prior to the Indianapolis 500 Race is an Unapproved Engine Change-Out.

16.5.5. Special Event – An Engine that has experienced a problem during participation in a pre-

decided special/non-Race Event is an Approved Engine Change-Out. Such Events will be decided by INDYCAR, and INDYCAR will notify Entrants prior to the Event.

16.5.6. Force Majeure - An Engine may have a problem requiring change-out as mutually agreed by INDYCAR and the Engine Manufacturer due to causes beyond the reasonable control of either the Entrant or Engine Manufacturer. The Engine may be replaced with another Engine from the Engine Pool without penalty.

16.5.7. Special/Non-Race Events – An Engine that has experienced a problem during participation in a pre-decided special/non-Race Event is an Approved Engine Change-Out. Such Events will be decided by INDYCAR, and INDYCAR will notify Entrants prior to the Event.

16.5.7.1. A Manufacturer Engine may also be used with prior approval from INDYCAR.

16.5.8. Pit Stop Competition – For the pit stop competition held on Carburetion Day of the Indianapolis 500 Race Event, Engine Manufacturers may substitute any Engines for assigned Engines with INDYCAR approval.

16.5.9. Operating Outside Guidelines – Changing an Engine before the Change-Out Mileage because it has been operated outside of the Engine Manufacturer's guidelines are subject to the following:

16.5.9.1. Entrant pays the repair costs of the Engine including parts, labor, shipping and travel costs for INDYCAR personnel; and

16.5.9.2. Once the Entrant pays the Engine Manufacturer the repair costs, the Entrant will be credited the unused mileage of the Engine and be supplied a fresh or used replacement Engine from the Engine Pool.

16.5.10. Crash Damage – An Engine that has suffered crash damage requiring a Non-Minor Repair may be changed without an Unapproved Engine Change-Out penalty and without a points penalty, only if the following conditions are met:

16.5.10.1. The Engine Manufacturer presents evidence of crash damage to INDYCAR;

16.5.10.2. Only parts failed as a result of the crash are replaced;

16.5.10.3. INDYCAR approves the change and assigns the Entrant a fresh Engine from the pool (only if an Engine is not already assigned to the Entrant); and

16.5.10.4. The crashed Engine remains allocated to the Entrant and must be returned when the repair is complete to finish its life before another Engine is allocated.

16.6. Unapproved Engine Change-Outs

16.6.1. Engine Failure – INDYCAR will inspect any Engine that fails on Track (oil, smoke, steam, or fire billowing from the Car). INDYCAR and the Engine Manufacturer must verify whether the Engine is repairable or if the Engine is completely failed. Any sealed parts that clearly show cracks, broken parts, or parts within sealed Engine area that show similar damage is considered failed. An Engine that fails on Track and is not able to be repaired is an Unapproved Engine Change-Out.

16.6.2. Entrant-Initiated Change-Out – For an Entrant-initiated Engine Change-Out, the Change-Out is considered a Rules violation and the Entrant will be listed in a position at the rear of the Starting Lineup for the next Race, regardless of whether the Change-Out occurs at a Race or Test Event.

16.6.2.1. If an Entrant makes two (2) Unapproved Engine Change-Outs during an on Track Event, the penalty for the second (2nd) Unapproved Engine Change-Out is served at the following Race.

16.6.2.2. Entrant-initiated Engine Change-Outs lose ten (10) Driver and Entrant points.

16.6.2.3. All mileage remaining on an Engine prior to the Unapproved Engine Change-Out is lost.

16.6.2.4. No Engine Change-Out Starting Lineup penalties are served during the Indianapolis 500; however, points penalties will be applied. Penalties carried over into or earned at the Indianapolis 500 are served at subsequent Races.

16.6.2.5. Entrants not participating in consecutive on Track Events do not carry-over any Engine Change-Out penalties.

16.6.3. No Engine Change-Out is subject to more than one (1) Unapproved Engine Change-Out penalty.

16.6.4. No Unapproved Engine Change-Out penalty will carry over to the following Racing Season.

16.6.5. Entrant Abuse – An Engine may be damaged by the actions of the Entrant including but not limited to the use of non-approved fuels or oils, tampering with the boost control or rev limit functions,

continuing to operate the Engine after being informed that a problem has occurred including overheating (“Entrant Abuse”). Changing an Engine before the Change-Out Mileage for Entrant Abuse is subject to the following:

16.6.5.1. Entrant pays repairs costs for the Engine including parts, labor, shipping, and travel costs for INDYCAR personnel.

16.6.5.2. All mileage remaining on the Engine prior to the Entrant Abuse incident is lost.

16.6.6. Removing the Engine to test a Down on Power (“DOP”) claim is an Unapproved Engine Change-Out.

16.7. Down on Power Engines

16.7.1. Entrant Claim - An Entrant claiming an Engine is DOP must provide supporting data to the Engine Manufacturer before the claim is reviewed. The Engine Manufacturer, in its sole discretion, decides if the DOP claim is valid.

16.7.2. Limitation – A DOP claim may not be made after the completion of the next-to-last (penultimate) Race Event of the Racing Season.

16.7.3. Manufacturer Agrees with Claim – If the Engine Manufacturer accepts the DOP claim, the Engine Manufacturer informs INDYCAR of the issue. INDYCAR inspects the supporting data and in its discretion decides if the DOP claim is valid. If it is decided by all parties that the Engine is DOP, INDYCAR shall:

16.7.3.1. Approve the Engine Change-Out; and

16.7.3.2. Assign the Entrant a fresh or used Engine from the Engine Pool for the outstanding miles of the DOP Engine. For Engine mileage purposes, the reworked or rebuilt Engine will count as a substitute for the DOP Engine.

16.7.3.3. The DOP Engine will be considered to have not met its full Engine life cycle.

16.7.4. Manufacturer Disagrees with Claim – If an Engine Manufacturer or INDYCAR does not accept that a DOP claim is valid, the Entrant making the claim may, in its discretion, pay the DOP bond to INDYCAR to have the Engine removed from the Car and retested by the Engine Manufacturer.

16.7.4.1. DOP Bond:

16.7.4.1.1. For an Entrant's first (1st) DOP claim, the DOP bond is \$25,000.

16.7.4.1.2. For an Entrant's second (2nd) and each further DOP claim, the DOP bond is \$50,000.

16.7.4.1.3. For Entrants only participating in the Indianapolis 500 Race Event, the DOP bond is \$50,000.

16.7.4.2. INDYCAR will keep the DOP bond until an Engine power test is completed at the Engine Manufacturer's venue. The retest of the Engine must be completed within fifteen (15) Business Days of the DOP claim. INDYCAR reserves the right to have an Official present at the test.

16.7.5. DOP Engine Passes Retest – If the DOP Engine retests within two (2) percent of its shipping test performance between 9,000 and 12,000 rpm:

- 16.7.5.1.** The Entrant loses the DOP bond and INDYCAR pays the DOP bond to the Engine Manufacturer;
- 16.7.5.2.** The Entrant pays INDYCAR's costs for having an Official present at the test;
- 16.7.5.3.** The DOP Engine is returned to the Entrant and installed prior to the next on Track activity following the DOP test;
- 16.7.5.4.** The DOP Engine is not an Unapproved Engine Change-Out;
- 16.7.5.5.** The rebuilt or reworked Engine that was in the Car during the DOP claim test is assigned to the specific Entrant and must be used once the DOP Engine has completed its life cycle.
- 16.7.5.6.** The Entrant loses ten (10) Driver and Entrant points; and
- 16.7.5.7.** The Entrant will start the next Race from the rear of the Starting Lineup. No Engine Change-Out penalties will be served during the Indianapolis 500 but points penalties will be applied. Penalties carried over into or earned at the Indianapolis 500 will be served at subsequent Races.
- 16.7.6.** DOP Engine Fails Retest – If the Engine retests more than two (2) percent under its shipping test performance between 9,000 and 12,000 rpm:
- 16.7.6.1.** INDYCAR returns the DOP bond to the Entrant;
- 16.7.6.2.** The DOP bond does not increase the next time the Entrant makes a claim;

16.7.6.3. The Engine Manufacturer pays INDYCAR's costs for having an Official present at the test;

16.7.6.4. The Engine Manufacturer supplies the Entrant with an Engine from the Engine Pool for the outstanding miles of the DOP Engine. For Engine mileage purposes, the replacement Engine counts as a substitute for the Engine that was removed; and

16.7.6.5. The Engine remains eligible to earn Engine Manufacturer points.

16.8. Engine Repair

16.8.1. All Engine repairs during an on Track Event must have prior approval from INDYCAR.

16.8.2. Minor Repair – A Minor Repair is a repair that can be done without the removal of either the cam cover and/or removal of any INDYCAR-applied seals.

16.8.3. An Engine that requires a Minor Repair, may, with INDYCAR's approval, be removed from the Car for repair without penalty. Use of the Car on Track with another Engine is an Engine Change-Out.

16.8.4. If any of the INDYCAR-applied Engine seals needs to be broken or removed, the repair cannot be carried out unless an Official is present and INDYCAR gives prior approval. If the repair is carried out at the Engine Manufacturer's shop, the Engine Manufacturer pays reasonable pre-approved travel expenses for the Official to be present.

16.8.5. Non-Minor Repair – A Non-Minor Repair is a repair that requires the removal of the cam cover and/or removal of any INDYCAR-applied seals. Non-

Minor repairs are only allowed to fix Engines that have suffered crash damage and the following must apply:

- 16.8.5.1.** The Engine Manufacturer provides evidence of damage to INDYCAR;
- 16.8.5.2.** Engine Manufacturer pays the repair costs of the Engine including but not limited parts, labor, shipping and travel costs for INDYCAR personnel;
- 16.8.5.3.** Only one (1) Non-Minor Repair may be carried out on any given Engine during its 2500 life.

16.8.6. Part Replacement – Parts may only be replaced with parts of the same design as those removed or with INDYCAR-approved upgrades.

16.8.6.1. If a Non-Minor Repair requires replacement of the Engine cylinder block casting or cylinder head casting (not including respective covers), it is not repairable and is an Unapproved Engine Change-Out.

16.8.7. Repair Dyno Confirmation – The Engine Manufacturer may run the Engine at its testing facility for the purpose of assuring the Minor Repair is effective. The Engine must be returned to the Entrant before the next scheduled on Track use of the Car unless it is superseded by another approved Engine Change-Out as follows:

16.8.8. Repair Completion – An Engine Manufacturer has three (3) weeks or before the final Race of the Racing Season (whichever comes first) to complete a Non-Minor Repair on an Engine and return it to an Entrant to be installed. If an Engine cannot be returned, the Engine Change-Out will be an

Unapproved Engine Change. Any Engine that was assigned to an Entrant during the Non-Minor Repair remains assigned to the Entrant and must complete its mileage before additional Engines are assigned.

16.9. Partial Season Entrants

16.9.1. Engine Manufacturers will support Partial Season Entrants approved by INDYCAR. Each Partial Season Entrant may use only the Engine supplied by the Engine Manufacturer or its designee and assigned by INDYCAR to the specific Entrant.

16.9.2. A Partial Season Entrant participating in consecutive on Track Events must continue to use the same Engine installed at the first Event of their program and subject to the following:

16.9.2.1. An Engine Change-Out before reaching the Change-Out Mileage is an Unapproved Engine Change-Out.

16.9.2.2. Once a Race Event is missed and the consecutive chain of Race Events is broken, the Engine may be Changed-Out and returned to the Engine Manufacturer without penalty.

16.9.2.3. An Engine Manufacturer may leave an Engine sealed in anticipation of further use by a Partial Season Entrant. If the Engine reaches its Change-Out Mileage during further uses, the Engine Manufacturer will earn points for completing the Engine's life cycle.

16.9.3. A Partial Season Entrant is not entitled to a fresh or zero (0) mileage Engine.

16.10. Engine Inspection

16.10.1. INDYCAR may request an Engine inspection be carried out on an Entrant's installed Engine after on Track activities. If the Engine must be removed from the Car, a new Engine is supplied from the Engine Pool. The inspected Engine returns to the Car within twenty-eight (28) calendar days to complete its remaining mileage.

16.10.2. INDYCAR does not pay rebuild costs incurred during any inspection of an Engine or its related parts and subsystems.
